

"After college, Doug and I were transferred around the country to Texas, Pittsburgh, Chicago, Boston, and now Annapolis. Catching up with "old and dear friends" at our class reunions has been both fun and important to staying connected! It's always been fascinating to see where our paths have taken us and to share memories of old while catching up on all that has happened since we graduated. Next year's reunion will mark 10 years since we were last together in a big way and I can hardly wait!!"
